NUMBER 49

PLANT TO MAKE TILING WILL COME TO REDCLIFF

**Details for First Canadian Industry of its Kind
Concluded—Pay-Roll of Seventy-Five Men—
Similar Plants in States Employ Many Hundreds
of Men.**

Without a competitor in Canada, a concern to manufacture floor and wall tile will start to construct its plant in Redcliff in February.

The final closure of this proposition was made by wire to the Stoney, Lockwood & Wheeler Company last Monday. The prospect of acquiring the tile plant was made public at the annual council meeting by Mr. W. J. Hayes, but it was not until Monday that all arrangements were definitely concluded—hence the delay in publishing.

The Redcliff tile plant will manufacture every form of ceramic and mosaic used in the building trades of the present day, for which there is an immense consumption in the corridor work of office buildings, apartment houses, etc., and the entrances and floors of business blocks. The glazed tiling used on bath room walls and floors is today a foreign product, says Mr. S. C. Dunn. Unglazed tiling will also be an output.

All tiling has heretofore been imported from either Great Britain or the United States, according to

the information given to the Review, but with a domestic concern manufacturing it the trade will be quickened, as the demand for it will be forced upon builders.

The field for this concern is exceptionally large, says Mr. Dunn, there being no nearer source of supply than Indiana.

That the character of the tile industry requires a large force of workmen is the statement of Mr. Dunn. Other members of the tile industry have plants employing men up in the hundreds, and the same future will open out for the Redcliff plant, possibly much larger with the undisturbed field at command. At the outset a probable 75 men will be employed.

The construction work will start some time after the first of the year, probably in February. The plant will cost over \$50,000 and may possibly approach \$100,000.

Other factories will be announced soon, when definitely concluded. There are several large propositions in town which, if successfully negotiated, will give Redcliff a great impetus.

BRITAIN—PLEWES INTERESTS RECEIVE TRANSFER OF TITLE

Mr. E. B. Plewes, who is associated with the English interests which are under contract to erect a steel tiling manufacturing plant in Redcliff next spring, received the transfer of title to the acreage comprising the industry from Mr. H. O. Wheeler, representing the Stoney Agency, or rather the Redcliff Realty Co., as the transferees were known at the time the agreement was consummated last April, at a special meeting of the council last evening.

There is nothing now, so far as the town is concerned, to obstruct the immediate carrying out of the plans of this syndicate in Redcliff. The transfer was made direct, instead of to the town as middle parties, because the town's departments for this property have not come from the printers, and therefore the course pursued obviated the necessity of a double transfer.

All arrangements have been concluded satisfactorily to the parties concerned. Mr. Plewes can not state definitely just now as to the plan of action of his people.

A Morning Fight Breaks Monotony.

Three Redcliff men were the principals in a punnelling affair on Third Street yesterday morning which ended in a bruised nose and discolored eye for one who, standing to say, laid the count five also, although he was pitted against two antagonists. The stories vary greatly and it is hard to know just what was really responsible for the affair, as there appears to be light on both sides.

Reid-Hang

At the Maize, Second street, S. E., on the evening of the 18th of November, Mr. Archibald Reid, conductor, and Miss Lillian Suse Hang, both of Medicine Hat, were united in marriage by the Rev. G. Lawson Gordon. The young couple will be at home to their friends after December 15th at 125 West Allowance, Medicine Hat.

For good buys on Broadway see the Broadway Specialists, J. I. Landis & Co.

Names Missing from Voters' List Is Subject of Council Meeting

Between hot shots about "why wasn't I on the voters' list?" and quite about donating for lights in the West End, the Monday evening council meeting was well epiced.

One of the first things brought to the attention of the council was the request of the school board for \$3,000 to pay off the contractors, Reid & Carey, who constructed the new addition, and to meet the salary roll for the past month. Alder Hodge suggested, on this head, of Mr. C. B. Mitchell's remarks at Tabor recently that towns are empowered to discount taxes ten per cent, that Redcliff do this to secure immediate funds. His suggestion was deemed inadvisable, inasmuch as the time on these statements is already well along and furthermore many people have paid taxes with no discount and it would certainly be unjust to them that more delinquent taxpayers should receive concessions in this regard. The conclusion of the discussion on this matter of tax collecting removed the possibility of deriving quick money from this source and the council explained to Secretary Riddell, of the school board, that as the town's balance in the bank at date amounted to but \$1,800 it would be impossible to give the Board all asked for, but that \$1,000 could be checked out in their favor at once. Asked if such an arrangement as above stated would be satisfactory, Mr. Riddell replied that "it would have to be."

The council asked if the teachers could wait a couple of weeks for their salaries and Mr. Riddell replied that, "being ladies who could they say?" and a roar of laughter went up in every quarter of the room.

Mr. R. Wray was chief spokesman in complaints about the omission of dozens of names from the voters' list who should be on inasmuch as they had not received statements, had in some cases paid taxes, and likewise had voted unquestioned in town elections of the past few months.

"I have paid my taxes; why am I not on the voters' list?" asked Mr. Wray.

"I not on the voters' list?" asked Mr. Wray.

"We have followed the act carefully in every respect, Mr. Wray," responded Mayor Daniels; "the assessment roll cannot be altered except at a court of revision, and all of those who were on the original roll are on the present list; those who should have been added should have notified the town clerk."

The explanation did not satisfy Mr. Wray at all. He could not understand what system could be devised that would enable the town to collect the taxes from a property holder without getting his name onto the tax roll.

The explanation did not satisfy Mr. Wray at all. He could not understand what system could be devised that would enable the town to collect the taxes from a property holder without getting his name onto the tax roll.

IRELAND EXPLAINS COUNCILOR STAND

To the Electors of Redcliff: Having been requested by a number of rate-payers to allow my name to be placed in nomination for the office of councillor, I have accepted the request and here by announce myself a candidate for the coming term.

If elected I promise to discharge the duties pertaining to such office in a faithful and efficient manner, being at all times in favor of full publicity of the town's business.

If you think I am the right man for the position vote for me for that reason and not merely because we happen to be friends.

Yours for a progressive administration.

H. A. IRELAND.

BANK OF COMMERCE OFFICIAL SAYS THAT CANADIAN WEST WAS NEVER IN BETTER SHAPE

That the condition of Western Canada never has assumed a more healthy tone than that which is being accredited to her more and more in the eastern financial markets during the past few weeks, is the statement which was made by Mr. Vere Brown, of the Bank of Commerce, at a banquet of the British-American League held in Chicago recently, said Mr. S. C. Dunn, special industrial publicity representative of the Stoney Agency, who was a guest at the banquet.

In recounting the remarks of this financial captain to the Review this noon, Mr. Dunn stated that the statement widely quoted in the press of the Winnipeg banker has borne much fruit in the comparison of eastern and western credits, and that the prevalent belief a few months ago that Western Canada has been peculiarly affected by a depression has been overruled since the tightness has spread not alone to Eastern Canada, but to the greatest banking centers of the eastern states.

The queuing process, as it has been called, is really, he said, has no one, said Mr. Brown, and has but served the beneficial purpose of removing foreign confidence in the West by exemplifying to the European markets that the banks have a master hand to restrain indiscriminate investments and to temper the wave of industrial and agricultural progress and speculation by a conservative policy at such times as the development shows a tendency to run away with itself.

As a matter of fact, there is more money in reserve and will be more on tap for legitimate development next spring than ever before. The so-called stringency has been prompted by a desire on the part of the banks of Canada to completely reconstruct the credit of the western part of the Dominion.

Another rate-payers' meeting is slated to be held tonight at the Empress Theatre. Several of the candidates for town officers will appear again, and what was said Wednesday will have a chance to bubble out of the kettle tonight.

BOTT REPLIES TO HIS TORMENTOR'S ATTACKS

Says Fitzgerald Has More Villifying Gall Than He Ever Experienced—The Gas Transfer Was Made Justly—Danez, Munroe and Council Nominees Address Crowd.

The following nominations for mayor, council and school trustees were made on Monday:

FOR MAYOR.
Benjamin J. Bott, nominated by H. J. Lang and seconded by R. S. Hodge.

FOR COUNCILLORS.
Edward C. Danez, nominated by L. D. Daniels and seconded by James Sinclair.

Andrew P. Munroe, nominated by J. J. McCoig and seconded by J. A. Flath.

Thomas Connelley.

J. A. Flath.

Richard S. Hodge.

H. A. Ireland.

Donald MacLachlan.

James Sinclair.

Was school trustees.

Len Barber.

David Broadfoot.

Louis H. Bryant.

James S. Colwell.

Harry B. Gosan.

William J. Hayes.

James T. Johns.

John Nicholson.

William H. Riddell.

More successful by far than the

several annual meetings of the council, the Monday evening meeting of Wednesday evening ended in a spirit of better fellowship.

All of the candidates for the mayoralty and council vacancies appeared on the platform in their own behalf.

Mr. H. A. Ireland and Councillor Richard Hodge spoke in an assuring way on their plans as council candidates. Mr. Ireland stating that his interests were in common with all Redcliff and to that end he would apply himself.

warning up to his subject, made the declaration that in the event of his being the choice of the people he would tolerate none of what he referred to as secret council meetings. Referring to Mr. Bott, his rival, Mr. Munroe stated that in the event of Mr. Bott's election he would support him as long as he showed him that he was right.

Mr. Bott arose in turn and made a direct reply to Mr. Munroe, re-emphasizing the friendly spirit that is more pronounced through seven years' acquaintance with Mr. Munroe, also, stating that he was "from Missouri."

Digressing from the vein of talk that concerned his rivals, Mr. Bott drew attention to the record of Redcliff in the year now closing, which has witnessed the worst financial depression since 1907. That the town has enjoyed a substantial development like which even the biggest cities have failed to realize exemplified the confidence of all Canada in Redcliff.

"Gentlemen, I have been to many public meetings in Redcliff," said Mr. Bott, "and have heretofore made little effort to defend myself against the persistent attacks that have been made from a man who possesses unmitigated gall and effrontery such as I have never encountered before, and gentlemen, if that man can lay his finger on any one thing I have done that is not open above board I would like for him to do so."

"Like my fellow candidate, I want to be shown when my interests are being over-riden; I am a rate-payer with property scattered all over the city and no one can say I am interested in the development of the east and any more than the west, or the north than the south."

"Those who all summer have been harassing the company which has built Redcliff away from this corporation has sunk money here in a way that no corporation in all Canada has spent money in 1913; it has been more active than the railroad of Canada, and is putting its money to the last dollar back into the industrial development of Redcliff."

"As for the future of Redcliff, continued Mr. Bott, 'there is one point that must not be lost sight of, we have to the north of us a great country of wonderful resources, two to one to what we have in Redcliff.'"

(Continued on Second Page)

TOWN OF REDCLIFF Revenue and Expenditure, Current Account, for Ten Months Ending October 31st, 1913.

Some criticism was rife, prior to the annual meeting, among a certain section of the way in which the funds of the town had been expended, but with the explanations at the ratepayers' meeting the policy of the administration was unanimously endorsed.

When the public knows the extreme difficulties under which the council has labored during the present year, they cannot but feel great satisfaction over what has been accomplished in every department.

The financial stringency came on early this summer. Before the stringency was apparent the town had its money bills payable, voted on and passed by the ratepayers, all estimates and plans for the year made and every arrangement completed. Then when we came to place our bonds on the market, we found the financial market completely destitute

of buyers and investors. In this respect we suffered no worse than any other town or city in the Dominion. In fact we have been more successful in obtaining funds, than most towns in the west, and this is evidenced by the fact that we have carried out every plan as originally laid before the emergency came on. We have made it possible to supply water to practically every property owner within the original limits of the town, at undertaking which to many seemed an impossibility when it was undertaken, because of the lack of funds and the short space of time in which the plans were to be completed.

Another remarkable showing is that of the huge amount of money yet due the town from its several sources of revenue, which totals over \$50,000. This means a much lower rate of taxation for next year.

All in all, conditions are in a very satisfactory state and the expenditures to be charged to capital account this coming year, in connection with the water system, should be comparatively small.

EDWARD C. DANIELS.

Mayor

BOTT REPLIES
TO HIS TORMEN-
TOR'S ATTACKS

(Continued from First Page.)

cliff. Yet at this time Redcliff has every advantage over that country, because it has the railroad facilities which will be several years in getting into the north country to open up its vast asphalt beds and timber resources. Now is our time to establish ourselves here as the great manufacturing center in Canada, and not allow the north country to get the start, and we can do it if we pull together.

Mayor E. C. Daniels was the next candidate to take the stage. He confined his address to a review of the administration now bearing a close and parried the attacks on the financing of the city, saying that it had been handled as economically as possible and that the expenditures all represent tangible assets.

D. D. Fitzgerald took the platform when Councillor Lavell, chairman of the evening, asked if anyone in the audience wished to make any remarks. He read aloud the minutes of meetings of the Redcliff and Medicine Hat councils and then arranged Redcliff's administration for turning over the rights in section 16 to the Light & Power Company. He contended his remarks on a censure of the policy of transferring any rights to a corporation.

Chairman Lavell arose with an explanation of every contribution of Fitzgerald. "If," said Mr. Lavell, "the town took these rights to keep them for years they would probably have little use for them in the other hand, the Gas Company is and has been carrying on a wonderful campaign of building up the city and it would be foolish to let them do it without any one to enjoy a utility just because one can't make use of it himself. However, Mr. Lavell said that at no time has he favored giving something for nothing. The meeting closed with a few remarks by Councillor Hicks.

Baldwins Have Baby.

YOUNG GIRL IS
STRICKEN WITH
TYPHOID FEVERThree Other Children In The
Brunski Family Are
In Its Grip.

With one child stricken with death and three more confined to their beds with the dread malady, typhoid fever has wreaked terrible vengeance in the home of Mr. Brunski on lower Second street. The disease seems to be flourishing in one certain little quarter of town. Pauline Brunski, a fourteen-year old daughter, was stricken most seriously and rapidly grew worse until death brought her feverish sufferings to an end last Monday. She has been sick two weeks. Three more children in the family are sick, one, a two-year-old baby girl, being almost despaired of. The physician in attendance is exerting every effort to save the child. The other two children are in a fair way to recover.

The daughter who was carried away by the disease was buried in Medicine Hat on Tuesday.

FRIDAY, DECEMBER 5, 1913

THE TOWN ELECTION

In another column will be found the names of the gentlemen who were nominated for Mayor, Council and School trustees last Monday morning. Of the three candidates for Mayor, Mr. Bott should appeal to the voters as the best fitted for the office. He is a man who has shown exceptional ability, and who has the welfare of Redcliff at heart. He came to this city about a year and a half ago from Saskatchewan and immediately became a booster for Redcliff and invested a good sum of money here. To-day he is probably one of the twelve largest rate-payers in our fair city. He is a man open and above board, and is not afraid to take a stand on all public questions, and we believe that he will protect the honest rate-payer in all his rights as such.

Of the six candidates for the council all have proved good citizens, but we believe R. S. Hodge deserves to be re-elected on his record. He has shown himself to be one of the most progressive members of the old council and has attended nearly every council meeting since the first town election and has looked after the interests of the rate-payers.

H. A. Ireland is well known by all of the old residents. He was one of Redcliff's first merchants and is well acquainted with the town's needs, and we believe he would make a good councillor and therefore urge his election.

Donald MacLachlan, another old resident, has already served on the council, and proved to be a very good man in that position, and the rate-payers will make no mistake if they again place him on the council.

The Dominion government will probably put through government works to an expenditure of \$200,000,000. This is a news report emanating from Ottawa. The government will recommend these outlays at this particular time to offset stagnation in trade channels and restore confidence. As the magnitude of the works contemplated will necessitate employing men almost in the hundreds of thousands, it is expected that such a great sum so distributed will vastly improve business conditions. If the outlay of this great sum is justified and planned anyway it is wise to hasten it at this time.

WHITE GIRLS AND CHINESE?

A Calgary Chinaman is very indignant at the agitation started in that city against the employment of white girls in Chinese places of business. He is a business man, and he says he proposes to employ white girls if he wants to and that the law which permits Englishmen and Scotchmen and other foreigners doing business in Canada to employ white girls can not stop him from which was demonstrated in a recent case in Moose Jaw, and that any citizen has a right to employ any adult labor that he wants to.

Very well Mr. Chinaman, if citizenship granted is the stumbling block you should be disturbed.

Is it not enough to allow the yellow race to live and make a living in a country from which it is the earnest hope of every Chinaman that he can take his savings back to the Flowery Kingdom, or rather Republic, and be a rich man among his clan without at the same time

polling disdain and insult on an Anglo Saxon sentiment which says you shall not harbor our sisters and daughters in your place of business regardless of any declaration of respect for them that you may make. It is the straw that should break the camel's back. When a Chinaman begins to dictate on a vital matter as the employment of young white girls those of their race that are already here should be branded aliens, unmindful of its possible international effects. The purity and protection of young womanhood is of more moment than the imminence of raptures with a land 10,000 miles away.

Anyone who has studied the effects of inter-racial employment and the oftentimes resulting cohabitation in the populated centers of the Pacific coast must concede that it is an abomination which cannot co-exist with North American standards. Every white citizen of whatever nationality should rise up against it.

Councillor Hodge requested in council meeting that a wire be sent to Ottawa to confront the damaging effects to Redcliff of Medicine Hat's allegation that their industries are located on section 10. It is a good plan, as a wrong impression would have been created. Section 10 is nearer to Redcliff than to the Hat and adjoins the eastern limit of its school naturally belong to Redcliff.

The Warpsite, another great
Dreadnought, is keel-laid
now. This cost a paltry \$15,
000,000 or thereabouts. That
sum of money would feed every
man, woman and child in the
Dominion for three days at
least. Yet Canadians are urged
to spend several times that
amount for a nucleus of a
navy of their own. The mad
race for war "preparedness" is
only matched by the mad sky-
rocketing of the cost of living,
for which it is in a large measure
responsible.

Brick Go Through Fire
Before they Go to You.

They are made from clay and the clay is burned
in a heat that averages 2300 degrees Fahrenheit—a heat
far greater than any fire they will ever be called upon
to pass through in the walls of your houses.

This is what makes Brick Fire-proof.

That is what makes Brick Frost-proof.

That is what makes Brick Imperishable.

Build Your Home of Brick-IT'S ECONOMY

True economy not only takes in the first cost but
the cost that is to come. Brick houses of average con-
struction cost but a few dollars more than lumber or
stucco,—say \$150. or a \$450.00 house. But when they
are erected cost stops. There are no repairs to be
figured on. There is no painting to be counted in every
3 or 4 years. There is no depreciation in price,—con-
sequently your house will sell for what it cost you, plus
the increase of the value of your lot in the meanwhile.
There is a reduction in the insurance rate of 37 per
cent over concrete or stucco and more than 50 per cent
over lumber. There is a reduction in fuel bills because
brick keeps out the frost in winter. There is comfort
in summer because brick keeps out the heat. And
above all you can borrow more money from your bank
on a brick house ten years after it is constructed than
you can on a lumber or concrete of the same value in
the same period of time. When you build, build for
true economy.

English Champ of the Mat Has an Easy Match

But Keal, of Redcliff, Makes
Clapham Hum Some
at Times.

MANY HOLDS SHOWN.

Clapham Shows Strength
and Control; Keal is
Outweighed.

With a small turnout of spectators, for some reason, the best wrestler who ever tarried in Redcliff and close to the top-notchers in the game to date appeared at Crowe's Hall last Saturday night in a bout with E. Keal.

Sam Clapham should need little advance advertising. He is in a class, with Henry Orlmann, Dr. Roller and Charlie Cutler. To any one who has seen these men on the mat the ability of Clapham is evident. He has the strength of any one of those men, but possibly is not quite so quick.

In his match with Keal, Clapham did not attempt to use his opponent rough, although when he went at him determined to handle him without further parley, as he did toward the last. Clapham demonstrated his great superiority.

Several times Keal, who himself is no back number at the wrestling game had Clapham in a position to pin his shoulders to the mat, but so great was the strength of his boxer that he resisted Keal's efforts by resting entirely on the back of his neck.

The first fall required nineteen minutes, but the last two falls came in quick succession. Keal, though a game and skilled opponent, was utterly outclassed.

Between falls Clapham exhibited his control of his muscles in posing. He caused muscles in the biceps and shoulder to jump around like live wire. Clapham demonstrated the half-nelson, full-nelson, hammerlock, toe-hold etc. On one occasion Clapham picked Keal up and hurled him over his shoulder in dislodging the grip that the latter had upon him.

Empress is Under New Management

The Empress theater has changed hands and Mr. Lalonde and sons, of Medicine Hat, are running the play-house. The new managers are endeavoring to improve the standard of film productions and expect to secure only the best at all times to keep the house up to the measure of those in the larger cities.

Lutheran Services
Evangelical Lutheran church services (in the German language) will be held in Redcliff on Sunday, Dec. 7th at the Presbyterian church at five o'clock p. m. All Lutherans are cordially invited to attend. Services will be conducted by Rev. Ernst G. Barts, of Medicine Hat.

Miss Sherwin Weds Tomorrow Evening

Tomorrow evening the wedding of Miss Helen Sherwin to Earl Saxe, now of Des Moines, Ia., will take place at the bride's home on Fifth street. Following the wedding there will be a reception for invited friends of Miss Sherwin. The wedding will be private with but few outside of the family in attendance. Miss Sherwin will leave at once for her new home in Des Moines.

This week has been a busy one for the coming bride. On Tuesday evening a shower for Miss Sherwin was held at the home of Miss Annie Woodcock. The Entre Nous Club was the sponsor of the evening, with about thirty young people in attendance. Mrs. Richard Dodge and Misses Woodcock and Robinson were the hostesses who planned the affair.

An illustrated prophecy of the young couple's future was one of the features of the occasion and all had a splendid time.

Will Be Making Experiments Soon

R. A. Waddell and his co-worker, "Bill" Poutrey, are busy from daylight till dark on the construction of their soap and cleanser experimental building across the track in Lockwood. Throughout the winter they will probably spend most of their time in conducting experiments to perfect the processes by which they expect to make soap, tooth paste and other toilet articles.

The building is of frame construction. Its equipment will consist of a gas furnace with drying racks over it to dry out the sanded powder. The building is expected to be ready for occupancy this week.

Presbyterian Church
"The Witness of Jesus" will be Rev. Mr. Gordon's subject on Sabbath morning at 11 in the church; and "Overcoming Promise and Power" in the Empress Theatre at 7.30 in the evening.

Sabbath School meets at 2 and Union Bible Class at 8.30 every Sabbath.

A service of praise and prayer is held every Wednesday at 8 p. m.

On Thursday the Ladies Aid meets at 2.30 and the Choir at 8 p. m.

All these services are without denominational bias.

The Reading and Writing Room is open every evening.

For fire insurance in good strong companies see J. L. Landis & Co.

"Smokes" Will Do Penance for Theiving Work

Negroes Probably Implicated
in MacNaughton Affair
Are Sent Up.

SAUNDERS REMANDED

Local Man Wants to Have
a Talk With the
Higher-ups.

"I want to explain this here matter to the high judges," said Samuel Saunders to the magistrates in Medicine Hat Wednesday when his four accessories received prison sentences ranging from two months to two years. So, according to the story as related by Chief Reynolds, the indifferent appearing colored gent who until recently was a familiar sight on the streets of Redcliff, Sam Saunders, is liable to a higher sentence in next spring's supreme court than those which his accomplices received.

It was later understood that Saunders' case would be tried today.

A complete round-up of the parties responsible for the depredations at Mac Naughton's store of some weeks ago has been made and considerable credit is due the poles of Redcliff and neighboring points for the capture.

Saunders is the only culprit who is face to face with the MacNaughton case, as the other four in the ring were sent up Wednesday on conviction on charges of Medicine Hat origin. Saunders is presumed to have been the leader in the Redcliff escapade. All of the stolen goods were recovered except one suit case. The fur coats which were taken are now on display in the furnishings store.

Mark Derring pleaded guilty to charges of thieving in Medicine Hat and was sentenced to two years at hard labor. Leonard King received two months, Joseph E. Ware four months and H. M. Huff, the only white man in the ring, also received sentence. The bunch is supposed to have worked together with Saunders in disposing of the stolen goods.

Edmonton Has The Oil Fever;

EDMONTON, Dec. 6.—Edmonton now has oil fever. Following reports that a strike had been made about nine miles from Athabasca Landing there was a mad rush to file on claims at the land office here late Wednesday afternoon and four whole townships comprising over 70,000 acres were blanketed in less than two hours. Inquiry this morning revealed the fact that during the past few days two large parties have gone north and have not yet returned. One of the Northern parties has it understood, been financed by an Ottawa syndicate. Nothing definite can be learned this morning as to whether any strike of oil has really been made.

That Debate

The church was well filled on Monday evening, to hear the first debate of the Union Bible Class. The question: "Which yields the greater influence—love or wealth?" was thoroughly canvassed, in the best of spirit, and of course love won the day, by a vast majority.

The next "Pleasant Monday Evening" of the Class will be on the 16th inst., when an election for the Mock Parliament will be held. The canvass is short and sharp and all members of the class have a vote. The candidates will be heard before the vote is polled on the 16th. The names of the candidates and their constituencies will appear in next week's Review. Join the Class and have a vote.

Miss Jessie Black, daughter of David Black, leaves shortly for Regina, Sask., where she will continue study in college.

Redcliff Bowlers Win One; Lose One

Honors With Medicine Hat
Bowlers Are Distributed
Quite Evenly.

Redcliff's picked team of bowlers played two three-game tournaments this week with teams from Medicine Hat. The first tournament was lost by a total of 183 pins majority gained by the Hat team in the three games, but Redcliff's captain attributes the Hat victory to the sickness of a couple of the local bowlers, and says they did not measure up to the regular standard. Last night, however, when playing what is known as the junior team of Medicine Hat, they bowled a very superior game and came out ahead in the totals by 220 pins. The total score last night was: Redcliff 2,403, Medicine Hat 2,183. The players in last night's game were, Redcliff: Dahl, Wagner, T. May, Brown and Black; Medicine Hat: Murray, Rosier, Dwyer, Williamson and Finlay.

On Tuesday evening's tournament the players entered were as follows: Medicine Hat: Bristol, Scott, Morley, Cris, Robertson; Redcliff: Brown, May, May Jr., Black and Dahl.

Another series of games will be played next Tuesday evening.

Where the Press Will Get a Roast

The Men's Christian League has informed us that a debate to be held in their club rooms next Thursday evening on the subject: "Resolved, that the attitude of the press can be detrimental to the morals of the community," is something to that effect. It is quite problematical whether the affair will be reported by the press. It looks like some one is trying to get a griddle club on foot.

Light and Power Co. In New Building

The officers of the Redcliff Light and Power Company were moved into its new building adjoining the Redcliff Realty Company's building. The Gas Company now have very commodious quarters, fitted up suitable for its own business. Mr. H. O. Wheeler will have charge of the company's business and Mr. D. R. Reem will be in charge of the office and of the business.

The Storage Agencies office are now much roomier since the gas Company has vacated.

Explosion in Hotel Furnace Injures Clerk

Blown across the basement by the force of a gas explosion in the furnace of the Laurel Hotel last Sunday morning at about 11:30, C. McIntosh, the young desk clerk, was so severely burned that he has been confined to his bed since the accident. No damage was done to the building except a slight dislodgement of sections of the floor on the street level.

McIntosh went down in the forenoon to fire up and it seemed that the gas had been allowed to escape in the furnace, with the result that when he opened the door and struck a match the consequent explosion hurled him across the room. McIntosh's shirt was practically burned off and his trousers scorched from the waist to the knees. His face, arms and hands were painfully burned, but the physician in attendance states that he will recover shortly and will not be disfigured.

The concussion drove out tin plates which stop pipe hoods in several rooms of the building, showering the rooms with dust, and caused dust between cracks of the flooring to stand up in ridges. Occupants who were in rooms at the time, were frightened by the shock.

Mrs. May Hanks has given to Redcliff to stay until spring, when she will return to Redcliff with her new stock of millinery for the summer season.

NOTICE TO CREDITORS.

IN THE ESTATE OF GEORGE OSWALD SMITHSON, LATE OF THE TOWN OF REDCLIFF, IN THE PROVINCE OF ALBERTA, DECEASED.

Notice is hereby given that all persons having claims upon the estate of the late George Oswald Smithson who died on the third day of May, 1912, are required to send to William Smithson, care of Messrs Davidson & Bell, 10 Imperial Bank Building, City of Medicine Hat, Alberta, on or before the first day of January, A. D. 1913, a full statement of their claims and of any securities held by them, duly verified, and that after that date the said William Smithson will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with the said William Smithson, the Executor of the said Estate.

Voters' List Subject of Council Meeting

(Continued from First page)
50 more lights and fixtures at once.

A by-law authorizing the transfer of certain streets and lanes in blocks 39 and 40 and 1st street west between 40 and 41, as constructed with the Rolling Mills, was given by its final reading and passed.

Councillor Howe wanted the council to wire Ottawa re the reports in the press alleging that Medicine Hat has industries operating in Section 10, which is the basis of a dispute between the two cities on the gas rights on this territory. After considerable discussion the council decided to do so, although several telegrams have already been sent on the matter.

The Women's Civic Improvement League had a letter on the table requesting that the town erect and supply gas to the three ornamental lights that have been donated for park purposes. A motion was passed granting the request.

Among other things the council decided to put in a new pipe from the Brick & Coal Company's plant to the pumping station, but will not remove the old one this winter. The supply of eight-inch pipe already on hand will be used. Medicine Hat and Swift Current were communicated with to secure larger pipe, but none was available. The pipe to be laid will take care of 7,000 people, said Engineer Askwith.

After much discussion it was agreed that a high pressure gas main should be laid at the town's expense from Broadway north to the fire hall for a firm whittle to be placed on the building. The cost complete will be \$205.

Rev. Hinkle reported a destitute family and was referred to the relief committee.

Chief Reynolds again appeared before the council on the matter of more help on the force, stating that the policing matter is getting serious. He has in mind a trained and efficient officer in Medicine Hat who will come if the council sees fit. The present night man can then be of help and be trained to greater capability.

Monteith Avers Squeeze In East Helps the West

Returning from States, He Says Money Should Be Had for Bonds.

That the trade depression which was thought to be existing in Western Canada has in reality spread in a more decided way to the eastern manufacturing centers of the States, is the statement of Mr. A. C. Monteith, who has returned from the south country.

"One plant engaged in the manufacture of Automobiles in Detroit and employing 5,000 men, has suspended operations for the time being," but the fact that not so much money is just now required in industrial work in the East means that there is more for western bonds and development work.

The shutting down of the automobile plant referred to shows that the westerner is spending his money only for necessities, for it is the westerner who buys more automobiles per capita than the residents of any other section of the continent.

Waste Elimination Is Discussion in the Men's League

Mr. Harvey Fischer of Medicine Hat addressed the Men's Christian League last Sunday afternoon at the Club Bazaar.

"The Elimination of Waste or the Conservation of Energy" was the topic. "Last year large quantities of waste material were exported from the United States 250 million dollars worth of food which were the product of manufacture from waste materials," said the speaker. Although competing with foreign countries where labor is cheap the wages of workmen in the United States maintained to a good average and good workmen are in demand, largely because we are learning to utilize waste material in manufacturing and create a market for the product of the same.

Mr. Fischer dwelt on the waste found on the farm and in the city and gave many instances where these waste substances were being utilized to good advantage today, where previously there had been no use made of them. He cited the fact that the Rolling Mills of Medicine Hat were paying 27 1/2 cents a pound for the products resulting from the use of scrap iron etc.

BREVITIES

J. D. Houghbanks left Medicine Hat last night to make his home in Grand Falls, Minnesota.

Emmett P. O'Connor is leaving for Fort Dodge, Iowa, to spend the winter. He expects to return to Medicine Hat in April.

Ed. G. Waller, Jr., left Monday for a fortnight's visit at his home in Minneapolis.

Joseph Orr, of the city engineering department, expects to go back to Ontario to spend the holidays at his home after two years' absence.

George Bennett leaves for Chicago shortly to spend the holidays.

Meers, Parly and Anshelm, of the drafting room of the Ornamental Iron Works, expect to go to Minneapolis for the holidays.

Mrs. J. S. Tupper and little daughter left Wednesday for a visit to St. Paul and east.

Mr. J. S. Tupper and little daughter, on Wednesday for a visit to St. Paul and east.

A. C. Monteith is back from Chicago.

Mr. Farmer!

We want your Barley and Oats. Will pay 5 cents more than market price. See O'Brien at the Crown Lumber Co. Office.
